## Building Connections

*It pays to plan ahead. It  
wasn't raining when Noah  
built the ark."*

*Anon*

*Building the capacity and sustainability of  
our health and community services  
workforce through skills development*

# Supportive Workplace Development Consultancy

*"Thanks for connecting me to the right people to talk to! It saved me heaps of time!"*

## What is the Building Connections Project?

- **Building Connections** provides you with the access to a consultant to Supporting Workforce Development" initiatives
- **Building Connections** provides advice and resources to assist organisations to understand and utilise the intersections between workforce development activities and the VET sector.

**Work with partners to help achieve your goals!**

## How can it help me?

*Building Connections* can help you:

- **Be informed** about VET Sector skills development options and contacts. This is designed to minimise the amount of time you spend "seeking VET based solutions" and provide a "one stop shop" service.
- **Connect and Gain additional** support for your workforce development activities by accessing a consultant to "demystify" navigation through the VET system and its opportunities, requirements and stakeholders.
- **Support Recognition Of Prior Learning** (RPL) and/or recognition of current competency processes by working with organisations and RTOs to develop relevant workplace models/processes.

*Our success has really been based on partnerships from the very beginning."*

*Bill Gates*
